

## **Letter to ACLU Regarding Autism Registry Proposal**

### **Letter to U.S. Senators**

Subject: Opposition to Proposed Autism Registry by RFK Jr.

Dear Senator,

I am writing as a concerned constituent to raise urgent opposition to a proposal made by presidential candidate Robert F. Kennedy Jr. to establish a government registry for individuals with autism. Such a measure is deeply troubling, discriminatory, and a clear violation of civil liberties.

Creating a government list of people based on a neurological condition sets a dangerous precedent. It threatens the privacy and dignity of autistic individuals and could pave the way for serious abuses. As someone who values human rights and the principles of equality under the law, I urge you to speak out against this proposal and ensure that no legislation or federal policy ever supports such a registry.

We must reject policies rooted in fear and misinformation and instead support efforts that foster inclusion, autonomy, and respect for all neurodivergent individuals.

Thank you for your time and commitment to upholding the rights of all Americans.

Sincerely,

[Your Full Name]

## **Letter to ACLU Regarding Autism Registry Proposal**

### **Letter to State Attorney General**

Subject: Request for Statement and Action Against Autism Registry Proposal

Dear Attorney General,

I am writing to express deep concern regarding a recent proposal by presidential candidate Robert F. Kennedy Jr. to create a government registry of individuals with autism. This proposal is alarming and raises serious legal and ethical red flags, especially for those charged with protecting civil rights at the state level.

As Attorney General, your voice and authority are essential in defending the privacy, dignity, and rights of neurodivergent individuals. I urge you to issue a public statement condemning this proposal and to explore potential state-level legal protections that could guard against any attempt to implement such a registry.

The people of [Your State] deserve to know that their fundamental rights will not be compromised, and that our government will not condone discriminatory practices disguised as policy.

Thank you for your service and for standing up for justice.

Sincerely,

[Your Full Name]

[Your City/County], [Your State]
